

# CHETAN PATEL

SENIOR FULL-STACK WEB ARCHITECT | SCALABLE BACKEND SYSTEMS | SECURE AUTH & API INTEGRATION SPECIALIST

+91 76989 45785 

cpjeslot@gmail.com 

Ahmedabad, Gujarat, India 

## ABOUT ME

**Seasoned Software Engineer** with **13+ years of experience** in designing and delivering **dynamic, user-centric web solutions**. Expert in **PHP** with deep expertise in building **scalable, high-performance applications**. Proficient in modern PHP frameworks including **Symfony (3+)**, **Laravel (4+)**, **Yii/2 (4+)**, and **CodeIgniter (1+)**, with strengths in **API integration, database optimization, and front-end technologies**. Skilled in leading cross-functional teams, mentoring developers, and ensuring project success. Passionate about clean code, best practices, and staying ahead of industry trends to craft innovative, future-ready web applications. I am currently enhancing my backend development skills by learning **Python** and **Node.js**, with a focus on popular frameworks like **Django** and **Express**. This **includes building APIs, handling server-side logic**, and gaining hands-on experience with modern web development practices.

## EDUCATION

June 2009

C. J. PATEL COLLEGE  
OF COMPUTER  
STUDIES, GUJARAT

### BACHELOR OF INFORMATION TECHNOLOGY AND COMPUTER SCIENCES

A comprehensive degree program combining the fundamentals of computer science and information technology. Developed expertise in programming, software development, data-management, and network administration. Acquired practical knowledge in areas including cybersecurity, database design, algorithms, and system architecture, preparing for roles in software development, IT management, and technology consulting.

## EXPERIENCE

### SENIOR ASSOCIATE CUM TEAM LEAD (PHP DEPARTMENT)

DRC SYSTEM INDIA LIMITED – GANDHINAGAR, INDIA

JUNE 2025

#### SENIOR SOFTWARE ENGINEER

SPHERE CARD, LLC – NEW YORK, USA

NOV 2024

MAR 2024

#### SENIOR PHP DEVELOPER CUM TEAM LEAD

INTELLIMEDIA NETWORKS PVT LTD – AHMEDABAD, INDIA

#### SENIOR PHP DEVELOPER

CONNECT IT HUB – GANDHIDHAM, INDIA

AUG 2022

DEC 2017

#### PHP DEVELOPER

SEARCH DRIVEN LABS – AHMEDABAD, INDIA

#### SENIOR SEO ANALYST

BRAND AID PVT LTD – AHMEDABAD, INDIA

AUG 2013

OCT 2011

#### SEO EXECUTIVE

REAL INFOWARE – AHMEDABAD, INDIA

JAN 2009

#### SEO EXECUTIVE

JESLOT WEB TECHNOLOGIES – AHMEDABAD, INDIA

# TECHNICAL SKILLS

## • Backend Development

Advanced proficiency in PHP with deep expertise in Symfony, Laravel, Yii 1/2, and CodeIgniter; working knowledge of Python and Node.js for scripting and lightweight backend logic.

## • Database Management

Proficient in MySQL, PostgreSQL, and MongoDB with strong skills in query optimization, data modeling, and schema design.

## • Front-End Technologies

Solid understanding of HTML5, CSS3, and JavaScript, including libraries and frameworks like jQuery, Vue.js, React, and Bootstrap 5.

## • Version Control & Deployment

Hands-on experience with Git, CI/CD pipelines, and Docker-based containerization for modern development workflows.

## • Testing & Debugging

Skilled in using PHPUnit, advanced debugging tools, and conducting performance testing to ensure code quality and stability.

## • SSO Specialist

Extensive experience in implementing Single Sign-On (SSO) using SAML, OAuth, and OpenID Connect for secure, centralized authentication and seamless user access.

## • API Development & Integration

Expert in designing and integrating RESTful and GraphQL APIs, third-party services, and microservices-based architectures.

## • Team Leadership

Proven ability to lead and mentor cross-functional teams, foster collaboration, and ensure timely delivery of robust, maintainable solutions.

## • DevOps Knowledge

Familiar with AWS, GCP, server administration, and automated deployment strategies to support scalable environments.

# SOFT SKILLS

- Strong problem-solving and analytical thinking.
- Excellent communication and team collaboration.
- Leadership in project planning and mentorship.
- Adaptability to evolving technologies and dynamic environments.
- Effective time management and task prioritization.
- Conflict resolution and decision-making under pressure.
- Strong attention to detail and commitment to quality.
- Proactive approach to identifying and addressing challenges.
- Empathy and ability to foster a positive team culture.
- Skilled in cross-functional collaboration and stakeholder management.
- Ability to work independently and take initiative.
- Positive attitude and resilience in challenging situations.
- Ability to coach and develop junior team members.
- High-level organizational skills to manage multiple projects simultaneously.

## KEY TECHNICAL ACHIEVEMENTS & IMPACT

---

- Collaborated with cross-functional product and engineering teams to conceptualize and develop innovative, user-focused solutions.
- Spearheaded legacy code refactoring and architectural enhancements, significantly improving performance and maintainability.
- Led end-to-end unit testing, QA coordination, and post-deployment validation to ensure high-quality product releases.
- Built dynamic, user-customizable applications that converted complex design data into intuitive graphical interfaces.
- Designed and implemented RESTful APIs to enable seamless multi-platform integration across web and mobile environments.
- Enforced system security through robust protocols and implemented data assurance measures to protect sensitive information.
- Translated business and technical requirements into scalable and well-documented software implementations.
- Performed comprehensive testing throughout the development lifecycle, ensuring functionality, reliability, and performance.
- Developed sophisticated, database-driven applications including full-featured eCommerce and enterprise platforms.
- Led backend architecture and performance optimization of high-traffic web systems, ensuring scalability and uptime.
- Engineered interactive front-end functionality using JavaScript, jQuery, and modern UI libraries.
- Acted as a data analyst, collaborating with BI teams to support data-driven business strategies and insights.
- Partnered with stakeholders to transform business requirements into actionable technical solutions.
- Executed link development and SEO strategies to improve search engine visibility and digital footprint.
- Architected enterprise-grade applications utilizing ORM frameworks for efficient data modeling and access.
- Mentored junior engineers, enforcing high coding standards, peer reviews, and best development practices.
- Diagnosed and resolved complex technical challenges, offering expert-level solutions for critical issues.
- Promoted code reusability and established organization-wide best practices for enhanced productivity.
- Managed escalations effectively to mitigate project delays and deliver within time constraints.
- Supported leadership with data analytics, internal tooling, and continuous process improvement initiatives.
- Designed and executed multi-functional workflows spanning several product domains.
- Collaborated with R&D teams to drive product innovation, feature rollout, and market readiness.
- Aligned development efforts with business strategy by working closely with product managers and analysts.
- Modernized existing CodeIgniter and legacy applications to meet changing client needs and performance benchmarks.
- Integrated complex third-party APIs via SOAP/XML, ensuring interoperability and system reliability.

## CAREER OBJECTIVE

---

I'm currently seeking full-time opportunities where I can contribute to building high-quality, scalable web solutions. With a strong focus on optimizing user experience and system performance, I aim to help organizations drive growth through effective digital platforms.

My expertise includes developing visually engaging, user-centric web applications and enhancing backend functionality to align with business goals. I'm passionate about contributing to innovative teams, applying my skills to solve complex problems and deliver impactful results.

By combining creativity with technical proficiency, I strive to deliver intuitive, high-performing applications that offer real value to users and businesses alike. I look forward to joining a forward-thinking team where I can make meaningful contributions and grow professionally.

## THANK YOU!

---

Thank you for exploring this application! Your time and interest mean a lot. I hope this system meets your expectations and demonstrates the power and flexibility of solutions built with PHP and Yii2 Framework.

Your feedback and suggestions are always welcome—they help improve and innovate. Whether you have a question, a proposal, or just want to discuss ideas, I'm here to collaborate and connect!

### Let's Build Something Amazing Together!

Feel free to connect with me for collaborations, inquiries, or new opportunities. Your feedback helps me grow and improve! With expertise in PHP, Modern web designing and development, I'm always excited to work on impactful projects. Let's connect and build solutions that make a difference.
